

PRESSURE SWITCHES

50094081

Issue 7

HP, HE, MH, ME, LP, LE, 5000, and 1000 Series

DESCRIPTION

The Honeywell Pressure Switch portfolio consists of:

- High Pressure (HE/HP Series)
- Medium Pressure (ME/MH Series)
- Low Pressure (LE/LP Series)
- 5000 Series, 1000 Series

These pressure switches are durable, reliable electromechanical gauge pressure on/off switches that are available with either single pole single throw (SPST) normally open or normally closed circuitry, or single pole double throw (SPDT) circuitry. Their high proof pressure and burst pressure ratings can allow for use in many rugged applications that require the making or breaking of an electrical connection in response to a pressure change of the system media.

DIFFERENTIATION

- **Through optional smart diagnostic technology, Honeywell pressure switches are able to detect failures such as open circuits, cut wires, worn insulation, and more⁶**
- Optional smart diagnostic technology allows up to four segregated signal amplitudes to perform diagnostics and status⁶
- Pressure port snubber suppresses pressure spikes²
- IP67 sealing provides enhanced durability in harsh environmental and washing applications¹

VALUE TO CUSTOMERS

- Designed to provide resistance to corrosion and enhances equipment life with available two million life cycle rating and IP67 rating¹
- Can expedite design and product cycle due to ability to receive samples in two weeks and production units in four weeks
- Can reduce tooling, service, and manufacturing labor costs due to standard connections, extended product life, and expedited design and production cycle

FEATURES

- Pressure switching set point range: 3.5 psi to 4500 psi
- Proof pressure: from 500 psi up to 10,000 psi
- Burst pressure: from 1250 psi up to 20,000 psi
- Life cycle rating up to 2 million
- IP67 sealing rating⁴
- Operating temperature: -40°C to 120°C [-40°F to 248°F]
- Hysteresis option⁵
- More than 15 pressure port options and over 30 electrical terminations
- Plated steel, brass or stainless steel options³
- Switching point accuracy up to $\pm 2\%$

POTENTIAL APPLICATIONS

- Agricultural machinery
- Heavy duty construction machinery and trucks
- Lawn & garden machinery
- Marine vessels
- Material handling machinery
- Railway
- CNC machines
- Compressors/boilers
- Fracking equipment
- Food & beverage equipment
- Generators
- HVAC/R equipment
- Mud pumps
- Pneumatic equipment
- Presses/punches
- Pressure washers
- Trash compactors
- Water pumps & jet cutting machines

PORTFOLIO

Honeywell also offers the [PBN1 Series](#) and [PBN3 Series](#) Pressure Sensor.

¹Set point: Point at which switch actuates or de-actuates

²Operating pressure: Maximum normal system operating pressure

³Proof pressure: Maximum pressure that the switch can handle while it maintains set point accuracy. Intermittent spikes to this level are acceptable.

⁴Burst pressure: Point of complete switch failure

⁵SPST: Single pole, single throw. SPDT: Single pole, double throw. NO: Normally open. NC: Normally closed.

⁶Field adjustability only available with AA, BA, CA, and DA (SPST only) terminations.

⁷IP00 for AA and BA terminations.

PRESSURE SWITCHES

HP, HE, MH, ME, LP, LE, 5000, 1000 SERIES

NOMENCLATURE: HIGH PRESSURE

For example, **HPR05500PFNSPAAA01** defines a high pressure switch, rising factory set, non-adjustable set point, 550 psi set point, psig, sealed gage pressure unit, M14 x 1.5 port type, SPST-NO silver contacts output, cold-rolled steel base, glycol-based fluid (EPDM) actuation/application, spade terminal connectors, standard switch, individually boxed units.

HP	R	05500	P	F	N	S	P	AA	A	01
Series	Set Point	Pressure Set Point	Pressure Unit	Port Type	Output	Base	Actuation/ Application	Connector Type	Options	Packaging Options
HP Series HE Series (100 psi to 4500 psi), High Pressure Switch	R Rising factory set, non-adjustable F Falling factory set, non-adjustable NOTE: Set point below 100 psi is available only with HP Series (Body Style B).	6.89 bar to 310.26 bar [100 psi to 4500 psi] NOTE: Pressure set point is always five digits. For bar, the set point value will be multiplied by 100 and entered in the listing. For example, 15,45 Bar is noted as 01545. This allows for 2 decimal places. For psi, the set point value will be multiplied by 10 and entered in the listing. For example, 245.5 psi is noted as 02455. This allows for 1 decimal place. HP, HE, MH, ME, LP, LE, 5000, 1000 SERIES

NOMENCLATURE: LOW PRESSURE

For example, **LPR00550PPFVKA01** defines a low pressure switch, rising factory set, non-adjustable set point, 55 psi set point, psig, sealed gage pressure unit, M14 x 1.5 port type, SPST-NO gold-plated contacts output, stainless steel base, Kapton® diaphragm (Teflon® coated), Nitrile O-ring actuation/application, spade terminal connectors, standard switch, individually boxed units.

LP	R	00550	P	F	P	V	K	AA	A	01
Series	Set Point	Pressure Set Point	Pressure Unit	Port Type	Output	Base	Actuation/ Application	Connector Type	Options	Packaging Options
LP Series, LE Series Low Pressure Switch	R Rising factory set, non-adjustable F Falling factory set, non-adjustable T Rising, field adjustable* C Falling, field adjustable*	0.24 bar to 10.34 bar [3.5 psi to 150 psi] NOTE: Pressure set point is always five digits. For bar, the set point value will be multiplied by 100 and entered in the listing. For example, 15.45 Bar is noted as 01545. This allows for 2 decimal places. For psi, the set point value will be multiplied by 10 and entered in the listing. For example, 245.5 psi is noted as 02455. This allows for 1 decimal place. * Field adjustable option is only available for:
1. Blade and screw terminations (SPDT, SPNO, SPNC)
2. Deutsch DT04-3P (SPDT, SPNO, SPNC)
3. Amp Superseal 1.5 (3-pin) (SPNO & SPNC)

Blade and screw electrical terminations are available with only the true gage option.

True gage option is available only up to 20 psig set point for integral connectors and wire out electrical terminations.

**** Available only on LP Series

¹Air, Petroleum-based hydraulic fluid, engine oil
²Glycol-based fluid
³For high temperature fluid media (**LE Series only**)
⁴For high temperature fluid media, glycol-based fluid (**LE Series only**)

*** For screw terminal option only

*These connectors are designed for dual circuit (SPDT) by default. They can be used for single-circuit applications (SPNC/SPNO) by making suitable connections. Refer to wiring diagram.
**For electrical termination with SPST option, only SPNO configuration is available. SPNC configuration cannot be provided.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgment or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective.

The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is buyer's sole responsibility to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.
