

Information Sheet

Van Damme Male VGA Plug to Male VGA Plug Video Cable Assembly, 15m

RS Stock No: 427-626

Features and Benefits

- Cables for monitor connection to a graphics card, VGA splitter or amplifier
- Covers long distances (dependant on card and resolution) with high resolution
- 3 coaxial lines for the RGB signals
- Screw locking mechanism
- Various length available; 2m to 30m
- HD15 connectors
- Male to female or Male to Male
- RoHS Certificate of Compliance

Application Information

VGA cables are a vital component when setting up computers to monitors, projectors and high definition television sets. On laptop computers or other small devices a mini-VGA port may be required in place of the full-sized VGA connector.
