

**FEATURES**

- P.C. board mountable
- Low cost
- Rugged design
- Solderable leads
- Versatile
- Available on tape and reel
- .1 inch to .4 inch diameter
- Res values from 100  $\Omega$  to 100K  $\Omega$
- Tinned copper leads

**DISC Thermistors** are ideally suited for low cost applications with a maximum temperature of 150° C. They lend themselves to be P.C. board mounted. Other lead styles available upon request.
