Introduction

TE Connectivity is a globally recognized preeminent supplier of fiber optic connectors and interconnection devices. We offer an extensive variety of optical connectors, cable assemblies, fiber management systems,

and optoelectronic active and passive components connectivity solutions. With unparalleled, worldclass technologies and high quality products, TE demonstrates its commitment to satisfying all types

of customers. Our sales service and support is available globally via an extensive network of TE sales engineers, field program managers, and applications engineers.

Additional Fiber Optic products available through TE:

Rugged Fiber Optic products can be found in **Catalog 1308940** (Connectors for Aerospace, Defense and Marine)

Netconnect Fiber Optic products can be found in Catalog 82164 (AMP Netconnect Product Catalog)

Restriction on the use of Hazardous Substances (RoHS)

At TE, we're ready to support your RoHS requirements. We've assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalog are identified as:

RoHS Compliant — Part numbers in this catalog are RoHS Compliant, unless marked otherwise. These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

NOTE: For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly "Out of Scope" of the RoHS Directive such as hand tools and other non-electrical accessories

Non-RoHS Compliant — These part numbers are identified with a " \blacklozenge " symbol. These products do not comply with the material restrictions of the European Union Directive 2002/95/EC.

NOTE: Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced at right.

Getting the Information You Need

Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from
- Non-compliant to Compliant Products Ability to browse RoHS Compliant Products in our on-line catalog
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above
- So whatever your questions when it comes to RoHS, we have the answers at www.te.com/leadfree

RoHS Customer Support Center

Catalog 1307895 Revised 4-12

WHAT'S NEW IN THIS ISSUE

PARALIGHT Active Optical Assemblies Pages 8-11

Functions like a standard

■ Low latency – 15.84pc +

■ 1/3 size and 1/10 weight of copper assemblies

electrical cable

cable

- 20Gb/s DDR QSFP and CX-4 **Cable Assemblies**
- Reach 150 meters and greater
- Available in QSFP, CX-4, and hybrid (QSFP-CX-4) configurations

Fiber to the Antenna Solutions Pages 71-96

- Designed for next generation WiMax and LTE Applications
- Robust designs for external antenna applications
- Broad range of solutions including traditional products and direct Tx mating solutions

ODVA Compliant Connector — Economic Robust Design

- All plastic
- IP-67 rated
- Rated for outdoor applications

- **ODC** Traditional Fiber to the **Antenna Applications**
- Robust all metal connector
- Significant product already deployed
- Available in Duplex or Quad

- **Direct Attach**
- Mates directly through the box to the Tx
- Eliminates one cable assembly internal
- to the antenna box

10 Gigabit Products Pages 12-13

- Supports IEEE 802.ae 10BASE-SR and 10GBASE-LX4 to 300m
- Complies with OM-3 fiber specifications of 2nd edition ISO 11801
- Allows Gigabit Ethernet 1000BASE-SX to 1000m
- Supports 50/125um legacy LED and laser-based applications
- This section outlines all the parts needed for an end-to-end system with 10 Gigabit cable assemblies and connectors

MPO on Round Cable Page 14

- Flexible round outer jacket for easier installation and cable routing
- Same standards compliant performance
- Fiber counts up to 24 for standard MPO, and up to 72 fibers using high density PARA-OPTIX assemblies

PARALIGHT Active Optical Cable Assemblies

Product Facts

- 4 transmit and 4 receive channels at 5 Gb/s and 10 Gb/s per channel
- Industry standard (SFF-8470) electrical connector (aka InfiniBand 4X, IB 4X, CX4*. Fibre Channel) and QSFP/ **QSFP+** Connector
- Internally terminated optics — no optical connector to clean
- Differential data I/O per InfiniBand version 1.2.1
- Asynchronous, internally AC coupled inputs and outputs
- Passively cooled design low thermal resistance heat path from chip to connector shell
- Small diameter cable (3.0 mm)
- Light weight
- Tight bend radius
- Following configurations also available. Contact your TE sales representative for details
- SFP+ 10 Gb/s single lane
- CXP 10 Gb/s twelve lane

*CX4 available in 5 Gb/s only.

Technical Document Product Specification 108-2330

Fibre Channel is a trademark of the Fibre Channel Industry Association. INFINIBAND is a trademark of the InfiniBand Trade Association. XAUI is a trademark of the 10Gigabit Ethernet Alliance XAUI Interoperability Group

TE's PARALIGHT active optical cable assemblies use state-of-the-art technology to provide cost effective high data throughput interconnects. The cables incorporate E/O and O/E conversion built into the connector shell to yield a dramatic improvement in PCB real estate utilization.

Using 850 nm VCSEL technology, the 5 Gb/s active cable assemblies will operate over a data rate of 2.5 to 5 Gb/s per lane with an aggregate data rate of 20 Gb/s in each direction. The 10 Gb/s active cable assemblies will operate over a data rate of 2.5 to 10 Gb/s per lane with an aggregate data rate of 40 Gb/s in each direction.

They are available in lengths up to 100 meters using 50 micron fiber. Longer lengths available upon request. The EOE circuitry is designed for use with 8B/10B encoded data streams, such as InfiniBand, Fibre Channel, and XAUI.

QSFP connector style supports connections for an I²C serial interface, which can be used to identify the product and performance capabilities.

specified

Dimensions are in millimeters

and inches unless otherwise

USA: +1 (800) 522-6752

Applications

- High Performance **Computing Clusters**
- Supercomputers
- High End Servers
- Mass Storage
- Metro Network Switch/Cross Connect
- High End Carrier Class Routers
- SDR, QDR and DDR InfiniBand Applications
- Other 2.5–10.0 Gb/s Applications (e.g. 10 Gb Fibre Channel or 10 Gig Ethernet XAUI on ports providing InfiniBand pinout 3.3 V power)

Mechanical/Environmental

- Up to 100 meters lonaer lengths available upon request
- 25 mm bend radius
- Operating Case Temperature 0° C to 70° C
- Storage Temperature -40° C to 85° C

Materials

- OFNR/CSA-FT-6 (plenum) cable
- OFN-LS (LSZH rated) cable

MPO Cable Assemblies

MTP/MPO Round Cable Assemblies

Suitable for Interface to Transceiver

Product Facts

- Flexible round outer jacket for easier installation/ routing
- Available in fiber counts up to 24
- Fiber path reversed or straight

Applications

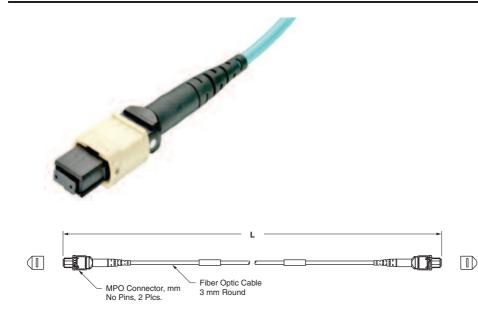

- Transceiver interface
- High density interconnect for optical switches, routers, PC cards

Options

- Fiber Types
- Singlemode
- Low Loss Singlemode
- 50/125 µm OM4
- 50/125 µm OM3
- 50/125 µm OM2
- 62.5/125 µm
- Bend insensitive fiber G657A or G657B

Cable Ratings

- Riser rated, UL-OFNR
- Plenum rated, UL-OFNP
- Low Smoke, Zero Halogen rated, LSZH

QSFP Compatible MPO to MPO

MPO Connectors and Adapters

Product Facts

- Tested to Telecordia GR-1435
- Push Pull Latching
- 4, 8, 12, OR 24 fibers
- Color-coded housings differentiate singlemode and multimode:
- Multimode Beige
- Singlemode Green
- Manufactured to IEC Standards 61754-7 and TIA/EIA 604-5

Industry Standard

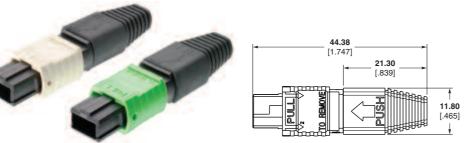

Performance Characteristics

Singlemode

Insertion Loss (Typ.) — 0.25 dB Insertion Loss (Max.) - 0.75 dB Return Loss — > 55 dB

Multimode

Insertion Loss (Typ.) - 0.2 dB Insertion Loss (Max.) — 0.5 dB Return Loss -> 20 dB

- Uses the latest generation MT-style ferrules
- Available in up to 72 fibers through a single MPO style connector
- Available in 24, 48, and 72 fiber
- Other fiber counts and lengths available
- Reduced space requirements
- Can provide cost benefit on a per-fiber basis

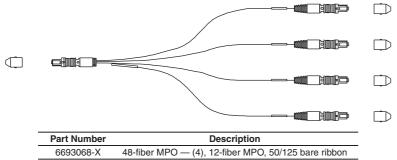

Potential Applications

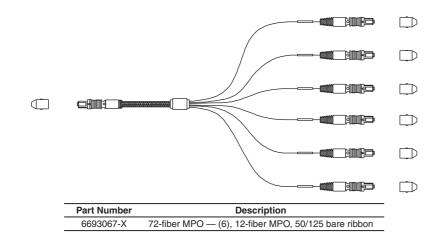

- Jumpers and trunk cables for Data Centers
- Optical backplanes
- SAN Very Short Reach applications

LIGHTRAY MPX Backplane Solutions

Product Facts

- LIGHTRAY MPX Interconnects offer a blindmate backplane solution
- A complete fiber optic system which is ideal for applications requiring customized solutions
- Features very small, high density LIGHTRAY MPX connectors
- Based on industry proven MT interconnection technology
- Can use both multimode (62.5/125 µm or 50/125 µm) and singlemode (9 µm) fiber, and is designed to meet Bellcore GR 1435
- Saves valuable board space on the PCB, backplane and I/O
- Suitable for blind mate (free floating) and bulkhead applications. Offers flexible fiber routing and management
- 2.5 mm of daughter card axial travel is provided
- Misalignment pick-up tolerance are: ± 2.0 mm horizontal ± 2.5 mm vertical ± 2 degree angular

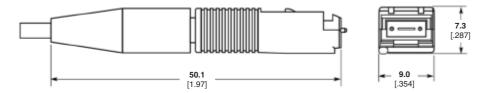

TE's LIGHTRAY MPX Interconnection System is designed for blind mate backplane and bulkhead dense fiber-to-fiber interconnect applications, including stand alone interconnections when used with bulkhead adapters.

The LIGHTRAY MPX Interconnection System offers maximum flexibility, making them ideal for customized requirements and solutions.

Based on the field-proven MT ferrule technology, the LIGHTRAY MPX Interconnection System features a miniature multifiber connector, which holds up to 24 fibers on 250 µm centers.

TE's LIGHTRAY MPX Interconnection System is multi-sourced and features fanout assemblies, mini trunk and trunk cable assemblies, pre-loaded enclosures, cable management systems, PC card connector housings and tooling, bulkhead adapters and transceiver modules and datalinks.

LIGHTRAY MPX Connector

		Value	
Parameter	Multimode	Singlemode	Singlemode Low Loss
Insertion Loss, Mean (typical)	0.20 dB	0.25 dB	0.20 dB
Insertion Loss, Max.	0.50 dB	0.75 dB	0.30 dB / 0.5 dB*
Return Loss, Min.	20 dB	45 dB	45 dB
Durability,		0.3 dB CIT — 200	0 cycles
Straight Pull 2.2N		0.3 dB chan	ge
Vibration, 10 to 55 Hz		0.3 dB chan	ge
Temperature, Storage		-40° C to +85	õ° C
Temperature Operating		-40° C to +85	õ° C
Thermal Aging, 14 Days @ +85° C		0.3 dB chan	ge
Humidity,14 days 95% Rh @ +60° C		0.3 dB chan	ge

* Low loss tested in-house to a maximum of 0.3 dB against a reference. 0.5 dB is maximum random mate loss.

LIGHTRAY MPX Backplane Solutions (Continued)

Fanout Assemblies

- Product Facts
- Multimode 62.5/125 µm and 50/125 µm
- Singlemode 9 µm, 8° angle interface
- Color coded buffered fiber or LSZH (Low Smoke Zero Halogen) sheathed cable with breakout kit
- Male LIGHTRAY MPX connectors (with guide pins)
- 4, 8, 12, 16 and 24 fibers
- Custom lengths available
- Connector labeling to guide insertion
- LC, SC, ST, FC or MT-RJ terminations available

Mini Trunk Assemblies Product Facts

- Multimode 62.5/125 µm and 50/125 µm
- Singlemode 9 µm, 8° angle interface
- 250 µm bare ribbon and LSZH (Low Smoke Zero Halogen) sheathed ribbon cable available
- Female LIGHTRAY MPX connectors (without guide pins)
- 4, 8, 12, 16 and 24 fibers
- Custom lengths available
- Connector labeling to guide insertion

Trunk Assemblies

- Product Facts ■ Multimode 62.5/125 µm and 50/125 µm

Cable Assemblies & Backplane Interconnects

Cleaning Kit Product Facts

- 2 re-useable cleaning kit assemblies
- 2 LIGHTRAY MPX bulkhead adapters
- 2 LIGHTRAY MPX backplane housings
- 1 pack of 24 cleaning tool inserts (can be ordered separately)

Description	Part Number
LIGHTRAY MPX Cleaning Kit	1278498-1
Cleaning Inserts (24/pack)	1457019-3

Connector Microscope Adapters

Product Facts

- Designed specifically for the LIGHTRAY MPX Connector
- Fits in standard TE's microscope Part Number 1754767-1
- 200 x power

Note: All part numbers are RoHS compliant.

* Coupling adapter Part Number 1985041-1 required.

Catalog 1307895 Revised 4-12

Cleaners

MTP/MPO IBC Cleaner Part Number 1918809-1

Product Facts

- Cleans male or female MTP/MPO connectors
- Pre-washed cleaning cloth is lint and debris free
- Each cleaner is capable of more than 400 cleanings
- Can be used for bulkhead and unmated MTP/MPO cleaning
- Protective dust cover doubles as an adapter cap for cleaning unmated connectors
- FOCIS 5-Type MTP/MPO interface compliant
- Removes dust and oil contamination
- Ideal solution for cleaning parallel optics transceivers

MTP is a trademark of US Conec Ltd.

The MTP/MPO IBC (In Bulkhead Cleaner) dry cloth cleaner offered by TE utilizes a densely woven micro-fiber cloth that cleans male (with pins) or female MTP/MPO connectors while in adapters, bulkheads, faceplates, or in unmated form with the unique adapter/dust cover. The unique cleaning cloth also reduces static charge

The OPTIPOP R dry cloth

cassette cleaners offered

woven micro-fiber cloth that

cleans fiber optic connector

tips while reducing static

charge. This makes them

one of the most advanced

cleaning systems available for optical connector

Note: All part numbers are RoHS compliant.

by TE utilize a densely

making it one of the most advanced cleaning systems available for bulkhead optical connector cleaning.

Applications

- For effective cleaning of: Male and female MTP/MPO connectors inside mating adapters
- Unmated male and female MTP/MPO connectors using included adapter

CLEANER.

Applications

- Parallel optics transceivers
- Networking gear including switches and routers
- Factory or field connectors

Product Dimensions

Length — 184.2 mm [7.25 in.] Width — 56.5 mm [2.22 in.] Thickness — 22 mm [0.866 in.] Adapter Length — 19.5 mm [0.759 in.]

OPTIPOP R Reel Cleaner

Product Facts

- Static attraction is minimized
- Ultra clean micro-fiber cloth captures debris and other contamination
- Robust cloth does not fray or leave fibrous material behind
- Reduces the number of field and test issues caused by contaminated end faces
- High-end cost effective cleaning solution

Reel Cleaner Refill (Six per Pack) Part Number 1918806-1

OPTIPOP is a trademark of NTT Advanced Technology Corporation.

Product Facts

- Singlemode Telcordia GR-326 Tested (Report 501-652)
- Multimode TIA/EIA 568B.3 tested
- Components packaged in 25 piece bags for easy access
- Same one-piece connector body for jumper and buffer
- Field installable duplex clip
- Compatible with anaerobic adhesives
- Mates with LC adapters (pages 34-35), LC Transceivers

SC Connector Kits

-40° C to +75° C

SC Connector Kits — **Standard Kits**

Product Facts

- Compliant with
- JIS C-5973
- Fibre Channel
- TIA FOCIS-3
- One-piece connector body
- Compatible with anaerobic adhesives
- Instruction Sheet 408-8674
- Components packaged in 25 piece bags for easy access
- Field installable duplex clip (6348522-1) available
- Mates with SC adapters (pages 39-41), SC Transceivers

Ferrule — Zirconia Housing and Connector Body — UL 94 V-O rated thermoplastic Length — Ferrule Tip to End of Boot 900 µm Buffered — 54 mm 2.0 mm Jacketed — 50 mm 3.0 mm Jacketed — 50 mm

Description	Fiber Type	Housing Color	Boot Color	Used with	Assembly Pack Part Number
Simplex	Singlemode	Blue	Blue	900 µm Buffered	2064939-1

Description	Part Number
125 µm	Black
DUALAN Cable	5492181-1
DUALAN Cable	5492181-2*

Termination Kit: 503746-6.

FSMA Products — Multimode

Product Facts

- Industry compatible with 905 (FSMA-I) and 906 (FSMA-II) style connectors
- Terminates fiber sizes from 125 through 1000 microns in diameter
- Design parameters conform to NATO and IEC interface standards

Description

MTRJ Connectors

MT-RJ Plugs

Product Facts

- Designed to meet TIA/EIA 568-**B**.3
- Each MT-RJ connector houses two fibers
- Half the size of duplex SC and ST Connectors
- Options available include: Multimode or singlemode
- Mini DUALAN or Mini
- Zipcord cable With or without guide pins
- MT-RJ SECURE Connector Kits

Performance Characteristics

Insertion Loss — Typical (dB) 0.2 dB Operating Temperature — -10° C to 60° C Durability — 500 Cycles

LIGHTCRIMP PLUS No Epoxy, No Polish LC, SC and ST Connectors

Product Facts

- Multimode connector kits come with accessories needed to terminate to 250 µm fiber, 900 µm tight-buffered fiber, and 900 µm easy-strip
- SC and ST kits also terminate 3 mm cables
- Singlemode connector kits terminate to 250 μm fiber, 900 μm tight-buffered fiber, 900 μm easy-strip and buffer tube splitter kits
- Easy installation:
- No epoxy, no polishing
- No bench tool required
- Strip, cleave and crimp
- Easy identification:
- Singlemode is blue
- Laser Optimized (10 Gig) is aqua — 10 Gb/s applications
- 62.5/125 µm is beige
 50/125 µm is black
- Match fiber type of cable to fiber type of LIGHTCRIMP PLUS Connector
- Mates with standard couplers, adapters and adapter plates
- Tested to and meets TIA/EIA 568-B.3
- Termination tool kits on page 49

Performance Characteristics Insertion Loss — Typical (dB)

0.2 dB Singlemode; 0.3 dB Multimode **Temperature Range** — -10° C to 60° C, tested to -40° C to 75° C

Durability — 500 cycles

Hand Held Precision Cleaver Part Number 1871696-1

Product Facts

- Operator independent = no craft sensitivity = consistent cleave every time
- Hand held operation
- 10,000 cleave blade life
- 4, 6, 8, 10, and 18 millimeter cleave lengths
- Product specific markings for LIGHTCRIMP PLUS and MT-RJ jack connectors, CORELINK splice, and fusion splicing
- Cleaved surface angle < 1.5°
- No lip, no fracture, and no roll-off
- Padded belt case for convenience and storage
- Neck lanyard included

TE's hand held precision fiber cleaver provides precision quality cleaves with the feel and robustness of a full scale precision cleaver in a hand held size at an exceptionally competitive price. The detailed scale markings indicate proper cleave lengths for popular TE field

installable fiber optic connectors and mechanical splices in addition to the standard numerical markings for other applications including fusion splicing. The included belt pouch and neck lanyard ensure that the cleaver is always within reach.

Applications

Affordable precision cleaving solution for:

- Field installable mechanical splice connectors
- Fusion splicing
- Mechanical splicing
- Bare fiber adapters

Product Dimensions

Length — 74 mm [2.913 in.] Width — 65.5 mm [2.578 in.] Thickness — 33.5 mm [1.318 in.] Weight — 136 g [0.30 lb.]

Epoxy/Polish Connector Termination Tool Kits

Product Facts

- Includes all tools necessary to install the listed epoxy/ polish connectors
- For LC terminations, also order Part Number 1754603-1
- Tool kits include:
- Pro-Crimper II Hand Tool and crimping dies
- Polishing bushings
- Polishing film (also sold separately)
- Cable and fiber strippers
- Scissors
- Scribe tool
- Includes polishing films to install » 60 epoxy/polish connectors
- Epoxy is sold separately (see page 52)
- Does not include curing oven or microscope
- Convenient carrying case

Hand Held Microscope Product Facts

- High quality glass optics 200X magnification
- Optimal visual examination of terminated ends
- 500 µm field of view
- Dual illumination
- Coaxial for inspecting polish quality
- Oblique for general conditions
- Pre-centered, threaded adapter mount provides easy focusing and changing of connectors
- Field and laboratory examination for multimode and singlemode fibers
- Portable
- Integral infrared filter for safety
- Do NOT use any microscope to view active fiber signals
- Disposable, Type LR44 batteries
- Long-life LED (approximately 100,000 hours of operation)
- Each Kit includes:
- 10-power objective microscope with an impact resistant ergonomic rubber shell and high quality glass optics
- 20-power eyepiece
- Padded carrying case with an integrated belt loop and internal adapter storage pocket
- Neck lanyard with safety breakaway feature
- Universal 2.5 mm ferrule adapter (for SC, ST and FC)
- Other adapters available are:
- Universal 1.25 mm (adapts LC and MU)
- MT-RJ
- MPO
- MPO APC
- LIGHTRAY MPX Connector
- LIGHTRAY MPX APC Connector

Note: All part numbers are RoHS compliant.

Fiber Optic Products Catalog

Fiber Management Systems

TE is recognized globally as a leader in Fiber Optics Interconnects. We also offer a complete line of integrated Packaged Solutions to meet most complex design challenges. Working directly with us, our designers can offer solutions that help reduce your time to market, simplify your manufacturing, and work with you so that your design requirements are met. We offer complete solutions to a variety of fiber management challenges.

The products in this Fiber Management and Packaged Solutions section are custom designed products, specific to our customers' applications. Please contact your local TE Sales Representative for design assistance.

LIGHTRAY OFX Optical Fiber Circuit Assemblies

Product Facts

- Singlemode and multimode product range
- Available in a range of symmetrical and asymmetrical designs
- Can be designed with a choice of protective film substrates (including VO rated materials)
- Pre-terminated with LIGHTRAY MPX Connector or any other industry standard connector
- Operates over a broad temperature range
- Fiber optic equivalent of a copper circuit
- Allows fiber "crossovers" without performance penalty
- Very low insertion loss
- Flat or cylindrical design

Benefits

- Easy routing and management of thousands of fibers on a single substrate
- Fully optical cross connect
- Liahtweight
- Saves valuable space
- Significantly contributes to skew compensation
- Easy to install
- Offers flexibility in systems design

TE's LIGHTRAY OFX optical fiber circuit offers an innovative and flexible solution to precision fiber management in high fiber count applications.

Designed using the latest fiber optic technology, the LIGHTRAY OFX optical circuit consists of a number

Key Applications

High Fiber Count Applications in Optical Transmission and Switching Equipment, in Equipment Racks or on the Printed Circuit Board.

- Provides a complete optical backplane, interconnecting multiple daughtercards
- Complex rack harnesses
- Simplified intra-rack fiber management and cabling
- Serves as a complete optical cross connect (64 x 64 or 128 x 128) in less than 500 x 500 mm of valuable space
- Can be used for the interconnection of optoelectronic devices on the printed circuit board

of optical fibers, which are encapsulated in thin protective film substrates. As well as saving valuable space in equipment and equipment racks, the LIGHTRAY OFX circuit also provides optimum optical performance. Optical fiber "crossovers"

allow the optical fibers to be routed in both regular and irregular designs. Fibers are routed on 250 µm center lines allowing LIGHTRAY MPX connectors to be terminated on the fiber tails.

Optical Performance (singlemode)

Maximum Insertion Loss* (connector loss) — <0.1 dB max; <0.05 dB typical Polarization Depending Loss —

<0.1 dB Mechanical Characteristics Vibration (per IEC 61300-2-1) —

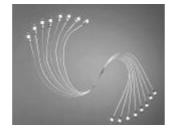

10-55Hz Fiber Retention (per IEC 61300-2-4) — 44 N max.

Environmental Characteristics Operating Temperature —

-40°C to + 85°C Storage Temperature — -40°C to + 85°C

Humidity — 95%

* final loss depending on connector types

On Card Fiber Management

Product Facts

Multimode or Singlemode

Custom design

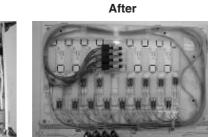

94-V0 rated materials

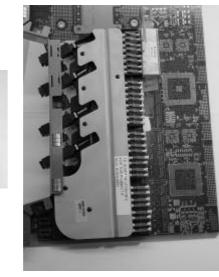

Benefits

- Easy management of on-board fibers
- Fiber protection and routing (allowing use of 250 micron fiber for added density)
- Pre-loaded and tested trays to facilitate manufacturing
- "Mezzanine" trays allow components to be mounted underneath the fiber tray — minimizing board real estate
- Splice management
- Maintaining minimum bend radius
- Eliminating long term performance degradation through "sag"
- Skew control

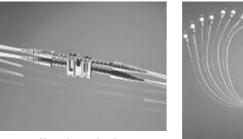

Thin modules designed to fit on your system card.

Plug and play — drop the module on your board and plug the connectors.

As customer interface panels and enclosures increase in fiber count and density, issues of fiber management, repairability, and scalability become increasingly complex. We offer complete solutions matched to the customers' individual program needs:

- High density, ease of access, flexibility
- Pre-loaded and tested cables
- Modular design approach for flexibility in I/O's needed, cable dress, and connector styles
- Accommodate airflow needs
- EMI Solutions

Laser Process for Fibershape Products

Fibershape Products by Laser Processing

Product Facts

- Complete range of cleave angles
- Ultra high precision measured @ core region (< ±0.5 degrees)
- Capable of providing domed end finish
- Angle cleaving of ribbons (incl. sawtooth)
- Angled cleaves in 0, 8, 45 and other custom degrees
- Ultra precise length control of cleaved endface versus ref. plane
- Capable of cleaving close to fiber coating
- High volume industrial solution for the optoelectronic industry

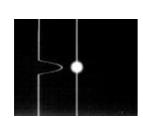

90 Degree VCSEL Array Interface

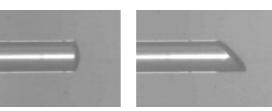

TE laser process, which uses the power of a laser beam to prepare fiber endfaces for termination in connector assemblies and optical devices, provides a state-of-the-art solution for opto electronic device pigtailing including:

- Planar OEICs
- Array Devices
- Discrete Laser/LED/Receiver package
- Detachable pigtails

This ultra high precision process enables very compact designs and perpendicular fiber coupling.

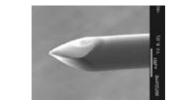

Please contact your local sales representative or TE for more in-depth product information.

Telecom Outside Plant Products

Other Products and Capabilities

The Telecom Outside Plant Business Unit of TE has been created from a family of companies with a long tradition of making quality components for telecommunications networks and providing innovative solutions for their evolving needs.

The FIST, FOSC, and FibrBoss families of modular fiber management products enhance the design, implementation, and maintenance of fiberoptic networks, from the central

office/exchange to the customer's premises.

For more information on Telecom Outside Plant products or services, visit http://www.telecomosp.com or contact customer service at 1-888-557-8901.

Attenuators

Singlemode Build Out Attenuators

Product Facts

- A range of fixed attenuation values. Standard values of 1 through 20 and 25 dB
- LC, SC, FC, ST, and D4 styles
- Attenuation is wavelength independent and polarization insensitive
- Low PDL
- Low modal noise
- Vibration resistant
- Dual Window and Broadband Bandpass
- End face geometry per GR-326
- Designed to comply with Telcordia GR-910

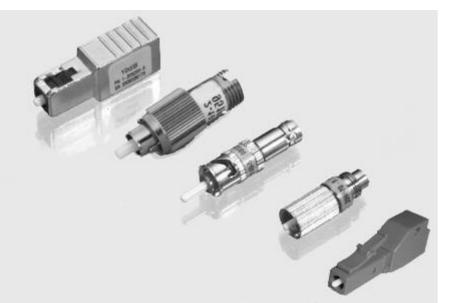

Applications

- Power leveling in DWDM transmission systems
- Test and Measurement
- Power attenuation at the receiver

Available Collateral

- Test reports qualifying product to Telcordia GR-910 (2004)
- Application Specification 114-1129
- Installation/Cleaning Instruction Sheet 408-8895
- Product Specification 108-2099
- http://www.te.com/ documents
- Customer Drawings

- Customizable Features
- Attenuation tolerance
 Attenuation values in 1 dB increments
- Labeling
- Kitting/Packaging
- Wavelength Dependent Loss
- Reflectance:
- UPC to -55 dB max.
- APC to -65 dB max.

Specifications

Attenuation Values — 1-20 dB and 25 dB (Fixed) Reflectance — ≤ -55 and -65 dB for UPC and APC polish, respectively Operating Temperature — -40°C to +75°C Vibration Resistance — < 0.1 x attenuation

5.0 V

Actuation Voltage — 100mA (maximum)

TE's Ruggedized Refractive Plate Switch is a multimode optical switch that is capable of withstanding a 200 G shock with a duration of >8ms without interruption of the signal path.

4 Plcs.

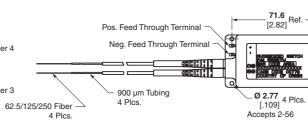

This switch is designed for extreme environments that require absolute product quality on optical installations and optical signal integrity.

Fiber to the Antenna Rugged Interconnect

Next generation WiMax and LTE Fiber to the antenna designs require rugged cable assemblies that plug directly into transceivers though a bulkhead.

It has to be a connector design that can accommodate a large tolerance in Z-direction. It has to allow one handed mating (to facilitate installation at the antenna). With a large Z axis tolerance, they will accommodate the broadest range of transceivers, so end customers can pick the transceiver of their choice.

Applications

- Base Stations

FULLAXS Fiber to the Antenna Rugged Interconnect

Product Facts

- Open bulkhead for easy access to SFP
- Positive feedback to operator when fully mated
- One-hand mating
- Duplex LC interface
- Bulkhead cutouts allow for removal of transceiver through the bulkhead (no need to open RRH for transceiver replacement)
- Robust bayonet locking for easy, fast, and secure mating
- Multimode and singlemode
- Water proof, dust proof and corrosion resistant
- Expansion to RJ45, etc
- Plug has tolerance free design, fully free floating in Z-axis
- No Cable buckling at any time during or after installation
- Cost effective glass-filled polymer or metal diecasted bulkhead
- Field installable version available

ODC[™] Plug and Socket Cable Assemblies

Product Facts

- 2 and 4 Channel
- Multimode 2 & 4 Ch; Singlemode — 2 Ch
- Compact design with 2 x or 4 x 1.25 mm ferrules
- Built-in socket available with square or hexagonal flange
- Water proof, dust proof and corrosion resistant
- Screw lock mechanism
- Scoop proof
- One hand, blind-mating possible
- Attached protection cap
- EMI shielded
- Low-Smoke, Zero-Halogen (LSZH)

The ODC connectors, together with the support optical cable, are becoming the standard interface specified in 3G, 4G and WiMax Base Station remote radios and Fiber-to-the-Antenna applications.

The ODC cable assembly is based on the N Type RF Coax connector. The prod-

uct, however, is not limited to the above applications. As the ODC cable assemblies have passed tests like salt mist, vibration and shock and meets protection class IP68, they are well suited for Industrial and Aerospace and Defense applications. Applications

LC ODVA Compliant Connectors

Sealed Circular LC ODVA **Compliant Connector**

Product Facts

- IP67 rated to ensure protection from dust and water immersion
- LC connector qualified to Telcordia GR-326 and **TIA/EIA 568B.3**
- Temperature range of -40°C to 85°C
- Bayonet-style mechanical lock
- Flame retardant materials per UL 94 V-0
- Dual mounting bulkhead design
- Singlemode and multimode fiher
- Can be used with cable types 9/125, 50/125 and 62.5/125
- LC to LC internal to the box Jumpers
- LC connector accepts tactical cable with 4.5 mm -7.5 mm OD
- ODVA Compliant Plug to X interface on tactical with break out
- ODVA Compliant Plug to Plug on tactical cable
- Build to customer need

Applications

The LC ODVA Compliant Connector is ideal for:

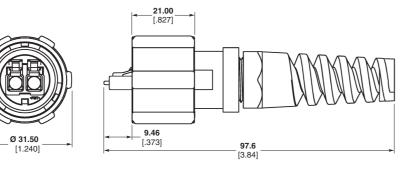

- Harsh environments where chemicals, corrosive gases and liquids are commonplace
- Inside and outside industrial plant and equipment that interface with industrial Ethernet networks
- Remote interface applications such as towers and antennae as well as FTTX in PON and at the home applications
- Mobile routers and internet hardware

PRO BEAM Expanded Beam Rugged Optics Products

Expanded Beam Products Product Facts

- PRO BEAM Sr., PRO BEAM Jr. and PRO BEAM Mini Connector field deployable interconnects
- ARINC 600 connectors, with inserts/holder blocks designed for Mini Expanded Beam — up to 128 channels on size 3 ARINC 600
- MIL-C-38999 Series III shell size 11 style circular connectors — Cable assemblies up to 4 fibers
- Unique Modular Design, for use with multimode and singlemode fiber
- Tactical cables, cable reels, backpacks
- Cable assembly and termination services
- Ball lens expands crosssectional area of light over 200 times for multimode and over 2000 times for singlemode
- Rugged hermaphroditic construction (i.e., same insert mates to each other)
- Physically non-contacting mating conditions; no wear, installed fiber ferrule protected by ball lens

From left to right: PRO BEAM Sr., PRO BEAM Jr. & PRO BEAM Mini Expanded Beam inserts.

Fiber Optic Interconnect/ Cable System using Expanded Beam technology, which physically expands and collimates the transmission signal into an optical beam over 14 times its original diameter (the cross sectional area of the light beam increases over 200 times for multimode optical signals). For singlemode signals, the collimated beam is over 45 times its original diameter (the cross-

PRO BEAM Mini Connectors

TE is pleased to announce the natural extension from our PRO BEAM Sr. and PRO BEAM Jr. Connector product lines.

The PRO BEAM Mini Connector saves space and weight and is perfect for high density applications. The product offers the same durability as its larger counterparts.

Optical Test Set for Fiber Optic Cables — Designed for harsh environments

Product Facts

- Especially designed to support the installation of optical links in the field
- Able to test both cable drums and entire links
- Powered by batteries with high autonomy
- Suitable for diagnostics and construction teams
- Easy to use, ergonomic, rugged design
- Suitable for cable length up to 10 km
- Supports up to 4 fibers per cable with various types of connectors

Diagnostic Features

Power Meter

The optical power from any source can easily be measured with the power meter function.

Optical Source

A continuous optical signal is generated and transmitted with selectable output power.

Drum Test / Cable Test

Test of an entire cable drum with automatic good/bad indication. The test of an entire cable is realized with a 2nd KPG-opt or a loop connector.

Test Frames (optional)

The KPG-opt can generate specific test frames as used in optical networks and LOS systems.

Notes: 35 mm recommended bend radius.

3.1 kN breaking strength.

2-Color Optical Fiber Cable Specification for Armored Cable for Ruggedized Applications Construction:

- 2-color coded fibers
- Fiber types 50/125/250 µm,
- 62.5/125/250 µm and 9/125/250 µm
- Stainless steel gel filled tube
- Stainless steel wire
- Jacket Nylon, black

Notes: 35 mm recommended bend radius. 3.1 kN breaking strength.

Note: All part numbers are RoHS compliant.

Non-Metallic Tactical Field Deployable Fiber Optic Cable **Technical Data**

Product Facts

- All terrain field deployable cable, up to 4 fibers, singlemode or multimode
- Developed for deployment under the most demanding conditions
- Tight buffered fibers are protected by Aramid yarns and a tough ruggedized polyurethane sheath
- Tested in accordance with MIL-PRF-85045
- Flexible, water resistant, high crush resistant, and lightweight,
- Designs available to be resilient against radiation exposure

Cable — 2 Fiber Singlemode Attenuation — ≤ 0.5 dB/km @ 1310 nm / \leq 0.5 dB/km @ 1550 nm Diameter — 5.8 mm Weight — 25 kg/km

Mil-Standard Distribution

Minimum Bending Radius — 29 mm Crush Resistance — 2000 N/cm Operating Temperature — -55° C to +85° C

Mil-Standard Distribution

Cable — 4 Fiber Singlemode Attenuation — ≤ 0.5 dB/km @ 1310 nm / ≤ 0.5 dB/km @ 1550 nm Diameter — 5.8 mm Weight — 27 kg/km Minimum Bending Radius — 28 mm Crush Resistance — 2000 N/cm Operating Temperature —

Mil-Standard Distribution Cable — 2 Fiber Multimode Fiber Type — 50 µm/125 µm and

62.5/125 Attenuation — ≤ 3.5 dB/km @ 850 nm / \leq 1.0 dB/km @ 1300 (62.5/125); \leq 3.5 dB/km @ 850 nm / \leq 1.5 dB/km @ 1300 (50/125)

Mil-Standard Distribution Cable — 4 Fiber Multimode

Fiber Type — 50 µm/125 µm and 62.5/125

Attenuation — ≤ 3.5 dB/km @ 850 nm / $\leq 1.0 \text{ dB/km} @ 1300 (62.5/125);$ \leq 3.5 dB/km @ 850 nm / \leq 1.5 dB/km @ 1300 (80/125)

Other fibers (i.e. Polyimide, Silicon buffer, Carbon coated, radiation hardened, etc.) are available upon request.

Contact TE or your local TE Sales Representative for part numbers, pricing, and availability.

Hand Held Visual Fault Locator (VFL)

Product Facts

- 650 nm (visible) Class 2 1.0 mW max Diode Laser
- Continuous and flashing (2-3 Hz pulsed) modes
- Rugged rubber shell and body design modeled after a popular military connector
- Lanyard attached dust cover
- Standard 2.5 mm adapter for SC, ST, and FC connectors
- Optional 1.25 mm adapter for LC and MU connectors.
- Unique design allows adapter to permanently reside on VFL so it is not misplaced allowing user to choose 1.25 mm or 2.5 mm
- Uses 1 "AA" style battery for >30 hours of continuous use
- Soft-sided belt case for convenience and storage

The TE Hand Held Visual allows the user to toggle Fault Locator (VFL) is a between continuous or rugged and affordable pulsed mode. The compact, solution for identifying rugged, and balanced breaks and bending in design is based upon a optical fibers and cabling. popular harsh environment Its powerful, red (650 nm) fiber optic connector. The laser provides the ability to single "AA" style battery is locate damaged, broken, or good for >30 hours of contightly bent fibers that cause tinuous use and the softundesirable attenuation in sided protective case with your system. belt loop provides a convenient and protective

The jacket of the cable will glow red at the location of the fault. The flash button

Description	Part Number
Hand Held Visual Fault Locator	1828352-1
1.25 mm Adapter for Hand Held VFL	1828353-1
Includes Part Numbers 1828352-1 and 1828353-1	1828352-2

means of storage.

Applications

Affordable VFL Solution for:

- Identifying breaks, bends, and other damage in optical fibers
- Tracing fiber paths
- Identifying termination errors
- Continuity testing

Product Dimensions

Length — 18.5 cm [7.283 in] Width — 2.2 cm [0.866 in] Thickness — 2.2 cm [0.866 in] Weight (w/battery) — 150 g [0.33 lb]

Combination LIGHTCRIMP PLUS SC/ST/LC Termination Kit Part Number 1985162-1
