

Common mode filters For power line **ACM** series

## ACM1211 type

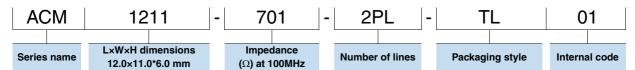

#### **FEATURES**

- Ohip common mode filter for large current applications.
  - For each series, there is excellent common mode impedance and noise suppression in a compact case.
- Ocompatible with high-density portable devices, which are always being made smaller and lighter, because the height has been reduced.
- Operating temperature range: -40 to +85°C

#### APPLICATION

- O Power line noise countermeasure for various electronic equipment.
- O Noise countermeasure for adapter lines and battery lines or larger electronic equipment such as note PCs and word processors.
