Features

Long 5 year warranty 2MOPP/250VAC

- Suitable for built in Class II applications
- Wide input voltage range (85-264VAC)
- Low leakage current (<75μA)
- 5000m operation
- -40°C to +85°C operating temperature

Regulated Converter

Description

The RACM40 is a compact 3" x 2" high efficiency AC/DC power supply with 2xMOPP safety approval for medical applications. These space saving enclosed power supplies have an universal input voltage range (85-264VAC), 4kVAC isolation, require no minimum load and can be used at ambient temperatures of between -40°C and +85°C. The 5V, 12V, 15V, 24V or 48V output voltages are fully protected and have tolerances of less than ±0.2% over the entire input voltage range and less than ±0.5% over the entire load range. The output voltage can be trimmed over a ±10% range. The RACM40 series is certified to medical safety standard IEC/ES/EN-60601-1 3rd Edition and with less than 75μA leakage current. It has a built-in Class B EMI filter and comes with a 5 year warranty.

Notes:

Note1: Max Cap Load is tested at minimum input and full resistive load

Model Numbering

Notes:

Note2: Case Style: without suffix, standard enclosed case add suffix "/OF" for open frame style

without suffix, standard connection with connector Note3: Connections: with suffix "-ST" connection with screw terminals

Examples:

= 12Vout, standard enclosed case RACM40-12S RACM40-48S/0F = 48Vout, open frame style

RACM40-15S/OF-ST = 15Vout, open frame style with screw terminal connection
