

STANLEY

STANLEY FATMAX® Automatic Wire Stripper

FMHT0-96230

Features:

- Strips 10-22 AWG wire
- Adjustable wire stop
- Spring loaded handles
- Comfortable grip

Description:

The STANLEY FATMAX® Automatic Wire Stripper has an adjustable wire stop, with a slider that allows fast pre-setting of pre-determined strips of 6-18mm. The pliers offer crimping capabilities and are colour coded for crimps for common insulated and non-insulated terminals 1.5-6mm. The comfortable bi-material handle provides an easier grip and helps reduce fatigue during repetitive periods of use. The handles are spring loaded for added convenience.
