

# Distribution

## Distribution block, 1E/3A

## Distribution box

## End caps

with locking device,  
1 input, male connector, 3 pole,  
3 outputs, female connector 3 pole

The individual distribution boxes offer optimum solutions for your specific application.  
The distribution boxes are available in different dimensions and can accept DIN rail mounted devices and terminal blocks in any combination. Further connection to the consumer devices is accomplished by the **gesis** IP+ connector system. Distribution blocks manufactured and tested according to specific customer requirements can be delivered to the construction site as pre-assembled components.  
The locking devices are already integrated.

For safely covering open male or female connectors.
