

SLEEK SAW STANLEY® JETCUT™

- The STANLEY® JETCUT™ 11-tooth/inch slit saw offers the perfect combination of speed, durability, comfort, precision and control
- This saw has a triple bevel tothing for optimum cutting speed and efficiency. The tothing has also been induction hardened for exceptional performance and durability
- The rugged JETCUT™ saw is made in France with an improved handle construction screwed to the blade for ultimate strength
- Made of 0.85 mm C75S steel, it offers a minimum of flexion when cutting for more control
- Handle includes 45° and 90° cutting guide
- The wide handle of the JETCUT™ saw provides excellent comfort during extended applications, and is completely overmolded for ultimate grip and control
- The wide finger holder fits all hand sizes and cut styles
- Its sturdy, reusable clip-on blade guard protects the saw blade during transport, and its hook hole makes storage easy
- Each JETCUT™ saw is colour-coded for quick and efficient identification
- With 11 teeth/inch, the JETCUT™ fine-cut saw is ideal for finishing jobs
