

## DEWALT 24pc FLEXTORQ Drill Drive Set

DT70748T-QZ

- Optimised torsion zone, maximising bit life and turning force when used in extreme applications
- Full fit head eliminates wobble and screw head rounding
- Contoured area of the bit tip flexes with the torque of the impact driver
- Includes 25MM: 1X PH1, 2X PH2, 1X PH3, 1X PZ1, 4X PZ2, 1X PZ3, 2X T20, 1X T25, 1X T30; Hex Shank Metal Drill Bits: 1X 3MM, 1X 3.2MM, 1X 3.5MM, 1X 4MM, 1X 5MM, 1X 5.5MM, 1X 6MM, 1X 7MM, 1X 8MM, 1X 10MM
- 

### Description:

The DEWALT 24 Piece FLEXTORQ™ Drill Driving Set has been designed for secure storage of bit sets and accessories. The small ToughCase™ has a clear lid for easy identification and includes a new 'twist up' bit retainers for easy bit removal. The built in torsion zone of the new DEWALT EXTREME® FLEXTORQ™ screwdriver bits are designed to absorb and control high impact forces, whilst transferring them into the optimised geometry of the bit tip. This maximises the delivery of the turning force into the fastener without rounding the screw head.

Specifications	
Head Type	FLEXTORQ™
Performance	Extreme
Size	25mm
Length	n/a
Pack Quantity	24
