

2/2 Normally Closed

Valves for dry or lubricated air, neutral gases and liquids

Order Code : 221G6606-2995-4818653D

| | | | |
|-------------------------|---------------------|-------------------------------|---------|
| Valve type | 2/2 Normally Closed | Fluids | air oil |
| | | Actuation type/Voltage | 230 VAC |
| | | Voltage tolerance | +/-10% |
| Port size | 3/4" | Options | |
| Body Material | 316L Stainless St. | | SIL |
| Pressure min | 0 | Ambient T°min | -10 |
| Pressure max | | Ambient T°max | 50 |
| Orifice diameter | 15 | Kv | / 80 |
| T°fluid min | 0 | ATEX zone | |
| T°fluid max | 100 | ATEX protection | |
| Power Max | 8W | ATEX class | F 155°C |
| Sealing material | FKM | ATEX protection dust | |
| IP Level | IP65 | ATEX protection gas | |

Valve only compatible with hydraulic oil and air/neutral gases
