

## REINFORCER SAFETY GLASSES – FIRE MIRROR LENS

- Features:
- Wrap around frame
  - Soft rubber nose piece for added comfort
  - Polycarbonate lens for impact resistance
  - Distortion free lens reduces eye fatigue
  - Hard coated for scratch resistance
  - UVA & UVB resistance

Safety Standards: EN166 1F

### Care & Maintenance:

Lenses should be cleaned regularly. Pitted, scratched or damaged lenses must be replaced by replacing the complete product. After each use it is recommended to keep in a microfibre pouch or rigid case. All products must be stored in a clean and dry environment.
