

LOW PROFILE MINI® Series

Blade Fuses – Rated 58V

Description

The Low Profile MINI® fuse has similar performance characteristics as the standard MINI® fuse. The lower overall height allows for more space and weight savings. The Low Profile MINI® fuse is designed to mate with tuning-fork terminals, which provides additional weight and material savings in fuse box designs by eliminating the need for female box terminals.

Features & Benefits

- High-contrast ampere stamps on housings aid identification
- Offers additional material savings by reducing the need for sockets
- Color coding shows the amperage rating for each fuse
- See-through housings make it easier to see when fuses blow
- Checkpoints on top make it possible to measure resistance without removing the fuse
- Simple to install and remove
- Refer To ISO 8820-9

Applications

- Cars / SUVs
