3M™ Steel Barb Cable Ties

# Industrial strength ties.

When the job calls for rugged cable management solutions that can withstand demanding conditions, you need cable ties you can trust. Introducing 3M™ Steel Barb Cable Ties, engineered to provide a tight, precise grip and a strong, long-lasting hold – even when the going gets tough.

# A tough tie for tough jobs.

3M™ Steel Barb Cable Ties are made of high-quality nylon 6/6 and designed with a stainless-steel barb that, when engaged, presses into the strap and grips tight. The strap features a robust, ribbed pattern to help ensure your bundles stay intact, even in high vibration environments. And unlike typical ratchet-style cable ties, the barb can be locked at any point along the strap – allowing for more precise positioning. Plus, the rectangular head design includes rounded corners and a curved tip for easy, fast installation without snagging – critical when working in extreme conditions.

## Features and Benefits

- Fast, tough hold for industrial applications
- Infinite locking positions to secure wire or cable
- Head design prevents snagging for fast, easy installation
- Ribbed body helps prevent slippage in high vibration environments
- Available in several strengths and lengths to cover your needs
- Colors available in natural for indoor use and UV weather-resistant black for indoor and outdoor use
- UL Listed 62275 Type 21 or 21S
