

WATER-VALVE-6.5MM-12VDC

This is water/air electro magnetic valve, operating with 12VDC power supply. Suitable for IoT plant watering projects. Works with 6mm sleeves. Normal closed, when no power water do not flow.

FEATURES

- Water pressure: (0-0.8)MPa
- Operating voltage 12V DC
- Operating current: 540mA
- Power: 6.5W
- Normal Closed
- Fast connection with 6 mm sleeve
- Two mount holes
