

### Specification

Display Wavelength (nm)/OD	VLТ	Lens Colour
190-600 2+	3%	Purple
450-615 1+		

**Please note** these are not laser safety glasses, but are conventional safety glasses that enhance the visibility of red wavelengths and do not protect the wearer’s eye from the laser. It is recommended that these glasses are only used with lasers were the output power conforms to class2/2M and below.

#### Over Glasses Style

- Universal Large
- Comfortable fit over Rx glasses or alone
- Adjustable temples
- Comfort-touch frame
- Side-shields for wide field of view
- CE Certified

**Caution:** Never look directly into the path of a laser beam. Laser safety eyewear offers protection against accidental exposure to stray or diffused reflection of laser beam energy for a maximum exposure of 5 seconds.

Laser safety eyewear protects only the wearer. All personnel within the work area should wear appropriate eye protection against possible exposure to reflected beam energy. Increased work area lighting may be required if eye protection luminous transmittance is less than 20%.

All laser safety eyewear are clearly marked with wavelength (nm) and absorption (OD) (Optical Density = log [1/Tsig]) where Tsig=spectral transmittance) and L-rating referencing tables 1 and 4 in EN207 (where applicable). Absorption curves available upon request. Colour recognition (of warning lights, etc) may be impaired by use of tinted filters.

Filters have passed environmental testing with extended ranges of +65 to 160°F.

#### Care & Cleaning

- Store product in protective case when not in use.
- Store in areas not exceeding 26°C (80°F).
- Discard if damaged, faded or if scratches reduce vision.
- Clean with a mild detergent or any over the counter lens/sunglasses cleaner (no alcohol) and wipe with non-abrasive cotton cloth.

**Please Note:** Global Laser reserve the right to change descriptions and specifications without notice.
