

FEATURES

- Replacement solenoid coil
- Compatible with 01V Series Valve
- Power supply voltage of 220 V AC
- Power consumption of 5 VA
- 3-pin DIN plug
- 100% ED rating means the coil is suitable for continuous use
- ATEX-approved for use in explosive atmospheres
- Conforms to CE European standards on health, safety, and environmental protection
- Conforms to Electrostatic Control Standards ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007
- RoHS (Restriction of Hazardous Substances) compliant

RS PRO 220V ac 5VA Replacement Solenoid Coil, Compatible With 01V Series Valve

RS Stock No.: 176-2118

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO replacement solenoid coil is suitable for use with an 01V Series hydraulic solenoid valve. Solenoid valves are used to control the flow of liquid, most commonly as a low-power switch operating a series of valves. They're found in a wide range of applications, including automatic irrigation systems, food processing and pneumatic automation.

General Specifications

Compatible With	01V Series Valve
Application	Automatic irrigation systems, food processing and pneumatic automation.

Electrical Specifications

Power Supply Voltage	220V ac
Power Consumption	5VA
Nominal Power	2W
Duty Cycle	100%
Voltage Tolerance	±10%V
Terminal Pins	Industrial Amp

Mechanical Specifications

Height	29.5mm
---------------	--------

Operation Environment Specifications

Minimum Operating Temperature	-10°C
Maximum Operating Temperature	60°C

Approvals

Compliance/Certifications	ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007, RoHS
