

FEATURES

- Steel crocodile clip
- Silver in colour
- Spring-loaded
- Current rating of 5A
- Jaw opening of 15mm
- Contacts made of steel with a nickel-plated finish
- Uninsulated
- Able to accommodate a 4mm banana plug

RS PRO Crocodile Clip, Nickel-Plated Steel Contact, 5A

RS Stock No.: 103-7249

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

One of the simplest methods of linking up components and wires in electrical circuits, this steel crocodile clip can be used to create temporary, flexible connections safely.

The clip's spring-loaded jaws open up to 15 mm in width, making it simple to attach to and detach from batteries or components. The opposite end of the clip can accommodate a 4 mm banana plug, enabling easy connection to a range of common electrical devices and equipment. Its steel contacts are resistant to oxidation and other types of corrosion, and their nickel-plating further improves this durability.

General Specifications

Type	Crocodile clip
Colour	Silver
Insulated	No
Connection Type	Spring-loaded
Applications	Classroom environments, electrical devices, for education on basic circuitry

Electrical Specifications

Current rating	5A
-----------------------	----

Mechanical Specifications

Jaw Opening	15mm
Contact Material	Nickel-Plated Steel
Width	15mm
