

Part Number: DFR0022

Description: Gravity: Analog Grayscale Sensor For Arduino

INTRODUCTION

- Wide voltage range from 3.3V to 5V
- Standard assembling struct (two 3mm holes with multiple of 5cm as interval)
- Easily recognitive interfaces of sensors ("A" for analog and "D" for digital)
- Icons to simply illustrate sensor function
- High quality connector
- Immersion gold surface

SPECIFICATION

- Supply Voltage: 3.3V to 5V
- Interface: Analog
- Size: 22x30mm (0.87 x 1.18 in)

SHIPPING LIST

- Analog Grayscale Sensor V2 x1
- Analog cable x1
