Thermal Management Solutions

Technical Data Sheet

GF400 Gap Filler

GF400 is a two part, liquid silicone based gap filler, which provides excellent thermal performance and can be cured at room temperature or accelerated with heat. After curing GF400 forms a low modulus elastomer preventing the 'pump-out phenomenon'.

- Soft and compliant for low stress applications
- Low viscosity; easy to dispense
- High thermal conductivity
- Low modulus elastomer, prevents 'pump-out'
- UL approved; UL94 V-0 flame retardancy rating

Approvals	RoHS Compliant (2015/863/EU):	Yes
	UL Approval:	UL94 V-0 (File:E320832)

Typical Properties

Liquid Properties:	Base Material Colour Part A Colour Part B Mixed System Viscosity (mPa s @ 25°C) Mix Ratio Gel Time (25°C) Cure Time (25°C)	Silicone Pink White 220 000 1:1 60 minutes 12 hours
	Cure Time (60°C) Cure Time (100 °C)	90 minutes 20 minutes

Cured System:	Cured Density (g/ml)	3.2
	Thermal Conductivity (W/m.K)	4.0

Colour Pink
Temperature Range (°C) -50 to +200

Dielectric Strength (kV/mm) 9
Volume Resistivity (ohm-cm) 10¹⁴

Shore Hardness @ 25°C 55 Shore 00

Flame Retardancy Yes
Weight Loss after 96 hours @ 100°C < 0.15%

<u>Description</u>	<u>Packing</u>	Order Code	Shelf Life
GF400 Gap Filler	400ml Two Part Cartridge	GF400_400ML	6 months
	50ml Two Part Cartridge	GF400_50ML	6 months

Directions for Use

Ensure surfaces are clean, dry and free from grease and dust before use. Certain materials like curing agents and plasticisers can inhibit curing of silicone compounds. These chemicals include:

- Organotin and other organometallic compounds.
- Silicone rubber containing organotin catalysts.
- Sulphur and other sulphur containing materials, Amines, urethanes or amine containing materials.
- Unsaturated hydrocarbon plasticisers.

Additional Information

Cleaning: GF400 can be removed easily up to 1 hour after application with an approved solvent

such as IPA.

Storage: Keep lids tightly sealed. Store under ambient conditions.

Health & Safety: Always refer to the Health & Safety data sheet before use. These can be downloaded

from www.electrolube.com
