Spray Paint Primer

Product Description

Spray Paint Primer is a highly effective air drying, high quality, and universal acrylic based primer in aerosol form. The sprayable primer exhibits excellent coverage and hardness and is ideally suited for use on instrument panels, cabinets and test boxes etc. Available in grey.

Features

- 100% ozone friendly
- Excellent coverage, flow and opacity
- Fast drying with good water and chemical resistance
- Excellent adhesion to bare metal

ENGLISH

Technical Data

Resin Type	:	Acrylic
Touch dry time (20°C)	:	< 20 min
Over-coatable	:	after 5 min
Odour	:	Characteristic
Solubility	:	Insoluble in water

Preparation & Application

- Ensure that surface is dry, smooth and free of dust and grease
- For preparing surfaces use of a solvent cleaner is recommended
- To test, spray a sample panel in advance
- Shake spray-can well before use and at intervals during spraying
- Spray (holding aerosol vertically), at a distance of 25-30 cm from substrate
- When spraying is finished, clear aerosol valve by turning can upside down and spray until only propellant is emitted

Packing

RS Code

400ml Aerosol, Primer Grey
