#### PHYSICAL PROPERTIES

| Category                  | Results          |
|---------------------------|------------------|
| <b>Typical Properties</b> |                  |
| Appearance                | Colorless liquid |
| Conductivity (mS)         | <3.00            |

#### APPLICATION GUIDELINES

DEI is an ideal product to be used in conjunction with our TSB. TSB is an empty, refillable trigger spray with adjustable nozzle.

It is not advisable to use DEI in a container and immerse the assembly or board, as DEI may quickly become contaminated with salts from tap water or even un-rinsed residues from the initial cleaning process.

Hold the PCB or assembly at approx. 45°. Spray DEI generously onto the assembly and allow to run down the board. The PCB may be quickly dried using our air duster (EAD).

### ADDITIONAL INFORMATION

**Shelf Life:** 36 Months

### SAFETY & WARNING

It is recommended that the company/operator read and review the Safety Data Sheets for the appropriate health and safety warnings before use. **Safety Data Sheets are available.**
