Tork Heavy-Duty Cleaning Cloth

W1 - Wipers wall/floor /standard system, W2 - Wipers combi roll system, W3 - Wiper pak system

Article	530137
System	W1 - Wipers wall/floor /standard system, W2 - Wipers combi roll system, W3 - Wiper pak system
Colour	White
Core inside diameter	7.1 cm
Embossing	No
Number of sheets	280
Ply	1
Print	No
Roll diameter	25 cm
Roll length	106.4 m
Roll width	31.5 cm
Sheet length	38 cm

The multipurpose Tork Heavy-Duty Cleaning Cloth is highly absorbent, thick and very durable, withstanding hard scrubbing without falling apart. It works with most solvents and removes oil, grease, water and stubborn spots quickly and effectively, while protecting hands from heat and metal scraps. This cloth fits in the Tork Floor or Wall Stand dispensers, developed for safety and efficiency, and the Tork Maxi Centrefeed or Boxed Combi Roll Dispenser, designed for single hand dispensing.

Key benefits:

- Compatible with most chemical solvents: Picks up and releases solvents more efficiently than textile products thereby reducing consumption
- Heavy-Duty design protects your hands from heat and metal scraps
- Reusable, strong, durable wipe - excellent rental towel and rag replacement

Environmental

Tork exelCLEAN® cloths

This product does not contain any silicone.

Cellulose Pulp
Polyester
Polypropylene
Functional agents or additives

Raw materials

Cellulose Pulp

Cellulose pulp is produced either from softwood or hardwood coming from responsibly managed forests. The wood chips are boiled together with chemicals to remove the lignin between the fibres. The pulp is TCF (Totally Chlorine Free) or ECF (Elementary Chlorine Free) bleached in order to achieve a clean, bright and strong product, but also to increase the hygienic and absorbent qualities.

Polyester

Polyester fibre is produced from terephthalic acid and ethylene glycol, which react through condensation to polyester resin. The molten resin is spun to fibres through spinnerets and cooled with air. The fibers are then cut to intended fiber length.

Polypropylene

Polypropylene or polypropene is a thermoplastic polymer made from oil. The molten resin is spun to endless fibres through spinnerets and cooled by air. The fibres form a web.

Functional agents and additives

Functional additives could be wet strength agent, antistatic agent and wetting additives/tensides.

Food Contact

This product fulfills the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Packaging

Fulfillment of Packaging and Packaging Waste Directive (94/62/EC): Yes
