Release highlights ⌄

mikroBasic PRO for FT90x is a full-featured Basic compiler for FT90x devices from FTDI Chip®. It is the best solution for developing code for FT90x devices. It features intuitive IDE, powerful compiler with advanced optimizations, lots of hardware and software libraries, and additional tools that will help you in your work. Compiler comes with comprehensive Help file and lots of ready-to-use examples designed to get you started in no time. Compiler license includes free upgrades and a product lifetime tech support, so you can rely on our help while developing.

Free upgrades

Compiler is constantly improved and new features are added with each new release. Owners of compiler licenses are entitled to free upgrades, which take just a few minutes of your time.

Free support

mikroBasic PRO for FT90x license guarantees you free product lifetime technical support, so you can rely on our help when developing.

Best price/performance

With mikroBasic PRO for FT90x you get full-featured and powerful tool, and in the same time very intuitive and easy-to-use. No FT90x compilers offers so much at such a price.
